**NEWTOP BRINGS YOU A NEW  
PASSION FOR GARDENING TOOLS.**

## **Enterprise Introduction**

Our company, Shanghai Newtop, is constantly looking for ways to deliver dependable, safe and professional equipment to clients who use gasoline-powered equipments. We have been dedicated to this market for more than 20 years. Just take a look at some of our products.

### **Advanced chainsaws and brush cutters**

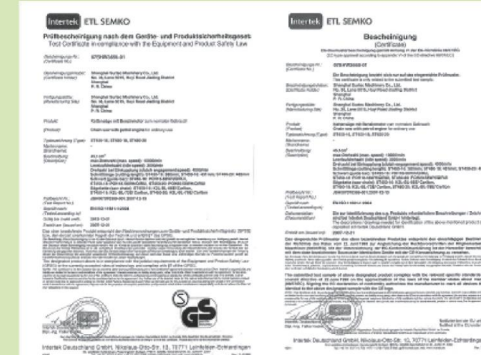

We produce chainsaws ranging from 25 to 105cc. They can be used both professionally and at home. Our newest NT3700, NT4510, NT5210, NT5810 model features a 16" to 25" cutting blade, an equal weight distribution design and anti-vibration structure. Brush cutters range from 25 to 52cc. The newest models have EURO II certification for the markets of Europe.

### **Anti-abrasion solid tip guide bar**

Come to us for solid tip guide bars. We harden the tips by using imported machinery, which makes them have greater anti-abrasive quality than standard bars. This type of product is used for professional chainsaws and sizes range from 10 to 42 inches. They are suitable for Stihl, Husqvarna, Dolmar and Homelite chainsaws.

Our factory is equipped with three assembly lines that are capable of making up to 30,000 units monthly. Contact us today to begin.

**ISO 9001:2008**

## Newtop's Quality Control Management

Newtop's equipments and technology control standard have reached the international advanced level. We have many precise equipments, such as computer controlling aluminium and magnesium procession centers, injection moulding machines, computer controlling lathes and etc.

Newtop company sets up the testing center and installs emission testing equipments, gas composition testing instrument, magneto testing desk, metal composition analyzer instrument, stiff testing instrument, wind blowing machine testing desk and etc.

We strictly keep quality control according to ISO 9001:2008 requirement. Every procedure in production is well controlled.
